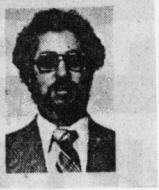
Battle of the Budget Continues on Monday



AROUND TOWN

For the first time in years the clock in the tower of City Hall was lighted Thursday night, and wasn't it grand! The Committee for the Restoration of City Hall and the Repair of the Clock held a meeting in Council Chambers. More than 50 citizens showed, which is more than Council or the School Board draws. The Committee has thus far raised $1,500 to have the clock repaired. They need $3,000. Nickles, dimes and quarters will be gratefully accepted at 41 N. Church Street. After the first of the year canisters will be placed in the Liberty Bank for everyone's convenience.
